---

Kathy's agency has nominated her for this award year after year because she bends over backwards for every single client. Every client she has ever been sent to absolutely adores her – there is nothing she won't tackle. One of her clients was a very large man who was very lonely and had nobody. She went in the morning to help him shower and get dressed for the day, and surprised him by packing up his wheelchair and taking him to an art exhibit she was planning to go to. He had such a wonderful time! This is a woman in her 70s who packed up a wheelchair and took the client so that he would have a day to remember. She also decorated his home for Christmas with decorations she supplied and bought him gifts and made sure he had a wonderful Christmas. She was with one family for 10 years, and they still keep in contact with the daughter even after the mother and father passed. She is what every caregiver should be: sympathetic, empathetic, compassionate, and dependable.
